

#4149
DISC BRAKE
WHEELBEARING GREASE

CHAMPION DISC BRAKE WHEELBEARING is a lithium complex grease designed to meet the high temperature requirements of vehicles equipped with disc brakes as well as those equipped with standard drum brakes. It can also be used for other general purpose grease applications. It has very good temperature stability, rust and oxidation protection, and pumping characteristics.

TYPICAL SPECIFICATIONS

Product Code	4149
Type	Lithium Complex
NLGI Grade	#2
Color	Red
Penetration	280
Dropping Point ° F	500+
Timken OK Load, #	45
Base Oil Viscosity:	
cSt @ 40° C	205
cSt @ 100° C	15
Consistency	Smooth

Available in:

- #4149C -120 # Drum
- #4149D - 35# Pail
- #4149Q - 6/4#
- #4149R - 12/1#
