

BLUE FLAME is part of the Champion Performance line. Other Champion Performance products are;

Champion Racing Oil* - Champions Use Champion

Champion® Racing Motor Oils are purpose built products for severe racing applications. These products contain Champion's proprietary TVS® (Thermal Viscosity Stabilizer), special lubricity modifiers, and a premium level of anti-wear additives which includes a high quantity of ZDDP.

Available in the following grades:

- 10W-30 Synthetic Blend
- 20W-50 Synthetic Blend
- 15W-50 Full Synthetic

*Champion® Racing Oil is not recommended for street use and should not be used in any passenger car engine.

Champion Classic & Muscle Motor Oil

Champion's Classic & Muscle Oils are purpose built for vintage, classic, hot rod and muscle cars that need more protection than current API specification motor oil can provide. Champion® Classic & Muscle Oil's high zinc and phosphorous formula is designed to deliver the correct balance of chemistry to protect vintage and high performance engines.

Available in the following grades:

- 10W-30 Synthetic Blend
- 20W-50 Synthetic Blend
- 15W-50 Full Synthetic

Champion Powershield® Engine Products

The demands placed on engine components during assembly and break-in are unlike any time during the life cycle of the engine. Champion Powershield® Engine Assembly Lube and Break-in Oil are designed to work synergistically to protect vital engine components during the assembly and hard break-in. Champion PowerShield® Engine Products are highly concentrated with zinc-thiophosphates, sulfonates, and phenates that super-boost engine oil protection, prevent sludge formation, and keep high performance engines running efficiently.

**Purpose Built
Diesel Motor Oil**

Champion Classic Blue Flame® Synthetic Blend Diesel Motor Oil

Today's diesel engine oils are designed to protect over-the-road diesel engines while maintaining strict government mandates. This provides adequate protection for over-the-road trucks, but leaves diesel pick-up enthusiasts with motor oil that lacks the robust additive rich formula that they need. Champion® Classic Blue Flame 15W-40 is purpose built for the extreme protection and performance of pre-2007 high performance diesel engines. Classic Blue Flame Diesel Engine Oil delivers unmatched high temperature film strength and lubricity protection. It combats oil shear, maximizes and sustains cylinder compression, and is proven to increase engine horse power and torque.

Features and Benefits:

- For pre 2007 MY Diesel Engines
- High-zinc performance additives, superior protection, advanced polymer technology, plus high TBN
- Anti-wear and detergent additives for increased robust protection at high temperatures and heavy load
- Utilizes TVS® (Thermal Viscosity Stabilizer) polymer chemistry, borrowed from CHAMPION RACING OIL technology
- Dynamic backbone of enhanced shear stability and viscosity control

Available Quarts and Gallons

Champion Blue Flame® 5W-40 Synthetic Diesel Motor Oil

Not all motor oils are created equal. Full synthetic motor oil capitalizes on the benefits of starting with ultra pure synthetic base stock and building in robust additives for the ultimate engine protection. Champion® Blue Flame Full Synthetic 5W-40 is purpose built with this technology, to improve the performance and protection of high performance diesel engines. Blue Flame Diesel Engine Oil provides 5% fuel economy improvement while delivering unmatched high temperature film strength and lubricity protection.

Features and Benefits:

- 100% Synthetic SAE 5W-40 formula
- Savings of up to 5% fuel economy improvement
- Exceeds API service levels CJ-4 and current OEM warranty requirements for extended service
- Meets, or exceeds, pre & post-2007 emission specs
- Advanced viscosity and soot control technology for shear stability and engine cleanliness
- High reserve alkalinity chemistry reduces corrosive wear and oil oxidation

Available Quarts and Gallons

Champion Blue Flame® 15W-40 Synthetic Blend Diesel Motor Oil

Champion® Blue Flame 15W-40 is purpose built for enhanced protection and performance of pre and post 2007 diesel engines. It's high reserve alkalinity chemistry reduces wear and oxidation delivers unmatched high temperature film strength and lubricity protection. It combats oil shear, maximizes and sustains cylinder compression, and is proven to increase engine horse power and torque.

Features and Benefits:

- Semi-Synthetic SAE 15W-40 formula
- Exceeds API service levels CJ-4 and current OEM warranty requirements for extended service
- Meets, or exceeds, pre & post-2007 emission specs
- Advanced viscosity and soot control technology for shear stability and engine cleanliness
- High reserve alkalinity chemistry reduces corrosive wear and oil oxidation

Available Quarts and Gallons
