1. Product Identification

Champion Brands, LLC
1001 Golden Drive
Clinton, MO 64093
(660) 885-8151

Product line: Champion® SuperGrade Cutting Oil
Products: 4196
CAS: Not applicable (Mixture)
Synonyms: Metalworking neat oil
Recommended use: Metal removal
Restrictions: None determined
Created: 28 February 2014
Revised: 10 August 2019
Emergency phone: CHEMTREC: (+1) 800-424-9300

2. Hazards Identification

Appearance: Brown, clear liquid
Odor: Slight sulfurous to pine-like
Classification: None
Target organs:

Symbol(s): Warning
Signal Word: Warning
Hazard Statement(s): Causes skin irritation.
Other hazard(s): Product will burn, though difficult to ignite. Mists of sprays of this product may be harmful if inhaled. Prolonged or repeated exposure may cause eye or skin irritation.
Precaution(s): IF ON SKIN: Gently wash with soap and water. Avoid breathing vapors/mist/spray. IF SWALLOWED: Do NOT induce vomiting. Get immediate medical attention. Avoid release to the environment.
Disposal: Keep out of waterways. Check local, national, and international regulations for proper disposal.
3. Composition/Information on Ingredients

Hazardous Ingredients:

<table>
<thead>
<tr>
<th>Component</th>
<th>CAS No.</th>
<th>Conc (wt%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Highly refined lubricating oils</td>
<td>Mixture</td>
<td>80 – 99</td>
</tr>
<tr>
<td>Phosphoric acids, polymers with isopropanolamine, tall oil and triethanolamine</td>
<td>68514-88-5</td>
<td>&lt; 0.1</td>
</tr>
</tbody>
</table>

4. First Aid Measures

Eyes  
Flush eyes with running water for at least 15 minutes. Get medical attention if irritation persists

Skin  
Thoroughly wash affected area with soap and water. Remove contaminated clothing and launder before reuse. Use a moisturizer or skin balm if excessive drying occurs

Inhalation  
Move to fresh air. If nausea or other symptoms persist, get medical attention. If not breathing, give artificial respiration. If breathing is difficult, give oxygen and get medical attention immediately.

Ingestion  
DO NOT INDUCE VOMITING. If vomiting occurs spontaneously, lower head below hips to reduce risk of aspiration. Get immediate medical attention

Additional Info  
Note to physician: treat symptomatically.

5. Fire Fighting Measures

Flash Point  
> 93°C / 200°F (based on flammability of components)

Extinguishing Media  
Use water spray, fog, foam, dry chemical or CO₂

Unsuitable Media  
Water jet may cause fire to spread

Firefighting Procedures:  
Fire-fighters should wear positive pressure self-contained breathing apparatus (SCBA) and full turnout gear

Unusual Hazards  
See section 10 for additional information
6. Accidental Release Measures

Personal precautions, protective equipment, and emergency procedures: Keep unnecessary personnel away. Wear appropriate personal protective equipment for emergency. Ventilate if released in a confined area. Eliminate sources of ignition if it is safe to do so. Wear suitable personal protective equipment and stop the spread of material will adsorbent or socks if safe to do so.

Environmental precautions: Avoid release to the environment. Prevent from entering into soil, ditches, sewers, waterways or groundwater. Produces oil sheen on waterways. Toxic to aquatic organisms

Methods for removal: Use a pump or bucket to recover free liquid. Residual liquid can be absorbed on inert material. Use non-sparking tools.

7. Handling and Storage

Max. Handling Temp: 70°C / 158°F
Procedures: Open container in a cool, well ventilated area. Avoid breathing vapors. Keep containers closed when not in use. Use appropriate containment to avoid environmental contamination. Avoid use in confined areas without adequate ventilation. Areas of inadequate ventilation could contain concentrations high enough to cause eye irritation, headaches, respiratory discomfort or nausea. Avoid breathing dust, fume, gas, mist, vapors, or spray. Wash thoroughly after handling. Launder contaminated clothing before reuse. Empty container contains product residue which may exhibit hazards of the product. Dispose of packaging or containers in accordance with local, regional, national, and international regulations. Store away from strong oxidizers

Max Store Temp: 50°C / 122°F
8. Exposure Controls/Personal Protection

Exposure Limits
Guidelines by component
Mineral Oil (mists)
  OSHA TWA: 5 mg/m3
  ACGIH TWA: 5 mg/m3
  TWA (Canada) 5 mg/m3
  STEL (Canada) 10 mg/m3
  EH40-MEL 5 mg/m3, 8 hours
  NOHSC 5 mg/m3, 8 hours

Other Exposure Limits: None known

Engineering Controls: Use in a well ventilated area. Where possible, cover sources of oil sprays and mists with adsorbent cloth to minimize exposure to mineral oil mists. Keep concentrations of mist below exposure limits

Personal Protective Equipment
Respiratory: Where mineral oil mists are generated – use full face respirator with organic vapor cartridge.

Eye: Wear safety glasses where splashing or splattering may occur

Gloves: Use nitrile or neoprene gloves. If material is hot, use appropriately insulated gloves.

Clothing: Use neoprene or nitrile gloves. When handling at elevated temperatures, use insulated apron or coat. Launder contaminated clothing before reuse

Hygiene: Wash thoroughly after handling this product.

9. Physical and Chemical Properties

Appearance Brown, clear liquid
Odor Slight sulfurous to pine-like
Odor threshold Not determined
pH Not determined
Melting Point Not determined
Initial Boiling Pt/Rng Not determined
**Flash Point** > 93°C / 200°F (estimated based on components)

**Evaporation Rate** Not determined

**Upper Flammable Lm** Not determined

**Lower Flammable Lm** Not determined

**Explosive Data** Not determined

**Vapor Pressure** Not determined

**Vapor Density** Not determined

**Volatile Organics** Not determined

**Density** 0.9 mg/cu. cm @ 15.6°C

**Solubility** Insoluble in water, alcohols; soluble in organics

**K_{ow}** Not determined

**Viscosity** ~40 mm²/s @ 40°C

**Autoignition Point** Not determined

**Decomposition Temp** Not determined

### 10. Stability and Reactivity

**Stability** Material is normally stable at normal temperatures and pressures

**Decomposition Temp** Not determined

**Incompatibility** Oxidizers and reducers

**Polymerization** Will not occur

**Thermal Decomposition** Smoke, oxides of carbon, nitrogen and sulfur

**Conditions to Avoid** Keep away from heat, flames, strong oxidizers and strong reducing agents

### 11. Toxicological Information

- **Acute Exposure** -

  **Eye Irritation** Not expected to be irritating to the eyes.

  **Skin Irritation** May cause skin irritation in individuals sensitive to skin irritation or after prolonged contact.

  **Respiratory Irritation** Mists of mineral oils, if inhaled, may be irritating. Coolant solutions prepared with this product may provide growth medium for bacteria and fungi. Mists of finished coolant should be treated as potentially infectious.

  **Dermal Toxicity** Not expected to be toxic to the skin.

  **Inhalation Toxicity** Inhalation of this product is not expected to be toxic. Exposure to mineral oil mists may be harmful. Symptoms of over-exposure to mineral oil mists may be similar to that of pneumonia.
Oral Toxicity  Not expected to be harmful.

Aspiration Hazard  This product may be fatal if swallowed and enters airways, particularly in those with weakened respiratory systems.

- Chronic Exposure -

Chronic Toxicity  No data available to indicate product or components present at greater than 0.2% are chronic health hazards

Carcinogenicity  This product contains mineral oils which are considered to be severely refined and not considered to be carcinogenic under IARC. All of the oils in this product have been demonstrated to contain less than 3% extractables by the IP 346 test.

Mutagenicity  No data available to indicate product or any components at greater than 0.1% are mutagenic or genotoxic.

Reproductive Toxicity  No data available to indicate product or any components at greater than 0.1% may cause reproductive toxicity.

Teratogenicity  No data available to indicate product or any components at greater than 0.1% may cause teratogenic effects.

- Additional Information -

Other  No other health hazards known

12. Ecological Information

- Environmental Toxicity -

Miscellaneous  No LD/LC/EC50 data was collected for this product. Classification is based on classification of components and summation formula. Expected to be very toxic to aquatic organisms with chronic, long-lasting effects.

- Environmental Fate -

Biodegradation  The petroleum oil in this product is not readily biodegradable, but can be broken down by microorganisms and is therefore considered to be inherently biodegradable. Some components of this product may persist in the environment.

Bioaccumulation  The petroleum oil in this product has a $K_{ow}$ greater than 5.3 and is regarded as having the potential to bioaccumulate. In practice, metabolic processes may reduce this potential.

Soil Mobility  This product is expected to have average soil mobility due to dispersant concentration. Dispersions of this material are expected to weakly adhere to soil, and to leech into run-off water at a rate dependent on temperature and flow rate.

Other Effects  Product contains olefins which may pose threat to aquatic life

13. Disposal Considerations

Disposal Considerations
All disposal practices must be in accordance with local, regional, national, and international regulations. Do not dispose in a landfill. Wherever possible, recycle product to used oil collection facilities in accordance with applicable regulations.

**Contaminated Containers or Packaging**
Dispose of packaging or containers in accordance with local, regional, national, and international regulations

### 14. Transportation Information

Description shown may not apply to all shipping situations. Consult applicable shipping codes to determine any additional shipping requirements

**US DOT**

Not Regulated

*If shipped by land in a packaging having a capacity of 3,500 gallons or more, the provisions of 49 CFR, Part 130 apply. (Contains oil)

**UN No**
Not applicable

**UN Proper Name**
Not applicable

**UN Class**
Not applicable

**Packing Group**
Not applicable

**Marine Pollutant**
*No

*Product contains petroleum oil – please review MARPOL Annex I before shipping this product navigable water.

**IMDG**

Not Regulated

*U.S. DOT compliance requirements may apply. See 49 CFR 171.22, 23 & 25. If transported in bulk by marine vessel in international waters, product is being carried under the scope of MARPOL Annex I.

**ICAO/IATA**

Not Regulated

*U.S. DOT compliance requirements may apply. See 49 CFR 171.22, 23, & 24.

### 15. Regulatory Information

- **Global Chemical Inventories -**

**USA**
All components of this material are on the US TSCA or are exempt

**Other TSCA Reg.**
None known

**EU**
Components of this product comply with EU 7th Amendment and are approved for EU sales. Records must be maintained and reported to EU only registrants if product is imported to the EU. Third party importers are asked to report every EU import to Champion Brands, LLC.

**New Zealand**
All components are listed or exempted

**Canada**
All components are in compliance with the Canadian Environmental Protection Act and are present on the Domestic Substances List
- Other U.S. Federal Regulations -

SARA Ext. Haz. Subst. This product does not contain greater than 1.0% of any chemical on the SARA Extremely Hazardous Substances list.

SARA Sect. 311/312
- Acute Hazard: NO
- Chronic Hazard: NO
- Fire Hazard: NO
- Reactivity Hazard: NO

CERCLA None

- State Regulations -

CA Prop 65 This product does not contain ingredients known to the State of California to cause cancer, reproductive toxicity or birth defects

- Other -

1. Other Information

Revision updates may be in many sections and the MSDS should be read in its entirety.
Prepared according to the UN Globally Harmonized System for the Classification and Labeling of Chemicals (GHS) by Champion LLC, 1001 Golden Drive, Clinton, Missouri 64735.
