PRODUCT DATA SHEET

CHAMPION POLY 7® RED TACKY GREASE

CHAMPION POLY 7® RED TACKY HIGH TEMP GREASE is a tacky, multi-purpose, high temperature grease that incorporates polymer technology, premium additive technology, hydro-treated base oils and a lithium complex thickening system. Additive and polymer technologies ensure maximum lubricity and adhesion, resistance to water wash-out, and resistance to sling-off. Tackiness additives keep this grease in place under high pitch line speeds, and provide ease of application.
