PRODUCT DATA SHEET

FULL SYNTHETIC POWER STEERING FLUID (HONDA)

CHAMPION Full Synthetic Power Steering Fluid formulated to meet the specific performance demands of Honda and Acura power steering systems. Has a higher viscosity than conventional power steering fluids which helps provide superior protection.

- Exceptional anti-wear properties that help protect system
- Anti-foam agents help prevent pump cavitation
- Anti-oxidant properties that help stop the formation of sludge
- Excellent protection and performance in cold weather

In 2007, Honda/Acura made changes to their power steering systems which demanded a synthetic fluid with more anti-wear protection, higher viscosity, and better seal compatibility. This fluid is backwards-compatible with older Honda/Acura power steering systems. Universal power steering fluids do not provide the necessary protection for Honda/Acura power steering systems model years 2007 and newer and may lead to seal or pump failure.

This fluid is suitable for use in Honda/Acura P/N 08206-9002A, Honda PSF-2, Honda PSF Type S, and Honda PSF Type V systems.

PART# 4186

TYPICAL PROPERTIES:

PRODUCT CODE:	4186
SPECIFIC GRAVITY @ 15.6 C	0.835
PHYSICAL STATE	LIQUID
FLASH POINT °C (°F)	225 (437)
POUR POINT °C (°F)	-40 (-40)
VISCOSITY @ 40°C, 104°F cSt	52.5
VISCOSITY @ 100°C, 211°F cSt	11.2
VISCOSITY INDEX	230

Available in:

4186K - 12 Oz
