PRODUCT DATA SHEET

CHAMPION DEXRON* LVHP TRANSMISSION FLUID

CHAMPION Dexron* LVHP Transmission Fluid (4353) is formulated to specifically address the shudder issue in GM 6L80/90 and 8L90 transmissions. This fully synthetic fluid has a lower viscosity and frictional durability required to address the torque converter shudder in these GM transmissions.

General Motors has released technical guidance regarding a shudder issue caused by improper transmission fluids in their 6L80/90 and 8L90 transmissions. These transmissions suffer from torque converter clutch shudder during acceleration between 25 – 80 mph. In order to prevent shudder and harshness caused by the torque convert clutches in these transmissions, GM is now recommending **ONLY** Dexron* LVHP fluids in these transmissions.

Meets and exceeds specifications for: Dexron VI, Mercon LV, Toyota WS, Honda DW-1 and more.

PART# 4353

*Dexron is a trademark of General Motors; this product has not been evaluated or formally recommended by General Motors

Available in:

4353H/6 - 6/Quart
4353AN - 55 Gallon

TYPICAL PROPERTIES:

PRODUCT CODE:	4353
GRAVITY API @60°F	36.11
VISCOSITY @ 40°C, cSt	30.37
VISCOSITY @ 100°C, cSt	6.11
VISCOSITY INDEX	155
DENSITY @ 60°F, g/ml	0.8439
DENSITY @ 60°F, lbs/gal	7.04
